

Grade 2 Daily Schedule

Monday, May 17

9:30 am

Class Teams Meeting

- Attendance

L.A. Lesson

-We are going to write a story involving **you and Flat Mrs. Christie**. Sit down with your family and talk about an activity we can do or an adventure we can go on. Write your story in your scribbler leaving a space between each written line (double spaced). Take a **picture of you and Flat Mrs. Christie during our activity or adventure**. Go to Christie's Cookies microsite to watch the video on what to do or read the page in your second bag. Write a **detailed** story of what happened during that time. Please try to finish a rough draft of your story today. Tomorrow more time will be given to writing your rough copy if you need it.

Math Lesson

-Find the pink Measurement booklet.

-You and your family are going to make your own "balance scale" at home. In your plastic bag, there are 2 red cups and string to help you make one. You will need a hanger and some tape. Click on the following link and watch a video to show how you can make the scale and measure the mass of 5 objects at home.

https://www.youtube.com/watch?v=RrrmTFU_978

-Next, finish pages 36 and 37 in your booklet. Use non-standard units to help find the mass. Choose objects that are not too heavy as you may not have enough units needed to find the mass. Remember to circle the heaviest object and underline the lightest object.
